

KIT/NCF - Slip 4 MT. @ WFOE-NWCO

DT 11/07/07

Discus:

- Financial
- At issue re: Work on site

Proposed approach

WFOE may start out w/a cost recovery approach (up to \$250k)

FB: Need to clarify boundaries & slip 4 basis

Perf.: Look @ interim actions & allow further remediation to proceed.

Morrell: Questions re: KITFS & interim actions.

KITFS is full, including non-KL, for slip 4.

- Some VUs are new in NRP/GTSP \rightarrow Secondary issue

LB: Would like to see separation of site authority, \rightarrow i.e., work with work plan

Scope + Work - NRP/GTSP \rightarrow KITFS \rightarrow Share comments w/group

Order no cost flexibility so interim measures can be continued w/o revising the order.
